Two years' Guarantee. Sent post free to every Station in India.

MESSRS. FAVRE, LEUBA & Co. beg to draw particular attention to the above watches, and confidently recommend them to every person who wants to buy a watch: CHEAP, STRONG, and GOOD.

These watches are of moderate size, in an extremely well-made and tight-shutting German Silver case.

The movement is protected inside by a glass dome.

The movement has a Patent Lever Escapement, built on the soundest scientific principles.

The watches are keyless, and the hands are set also through the keyless mechanism, so that there is no necessity of opening the watch.

The watches have a second hand.

The figures of the dial and the hands are left extra bold, so that the time can be seen instantly on a glance at the dial, and in nearly complete darkness.

The watch, as a whole, combines strength with all the conditions necessary to good time-keeping.

This watch has proved a complete success as a CAMPAIGN WATCH, and its usefulness is recognised by the daily increasing demand from all quarters of our Army in the field.

To Shikaries, Sportsmen, &c., these watches will prove to stand any amount of rough usage and handling.

We guarantee riding will not effect the working of these watches.

We dare confidently say that these watches, if treated with ordinary care, and cleaned once every two years, will give a 15 years' good service.

Every watch is fitted in a wooden case, in which will be found a spare glass, and a spare mainspring.

We receive now regular shipments of these watches by each mail, and every order can for the future be executed by return post.

Only watches that have been examined and timed are despatched on orders.

2 years' guarantee. Packing and postage free.

COMMERCIAL INTELLIGENCE

FRIDAY EVENING, Nov. 12.

THERE has been nothing of a very special character apparent in the business of the week. Imports are quiet, with few movements of value; and in exports, transactions, although on the increase, are still comparatively restricted. Prospects for the coming season, however, continue most encouraging, and in anticipation of unusually heavy exports a large number of steamers are being fixed for future loading. It is a question, perhaps, whether for the more immediate future this is not being rather overdone, but for the most active part of the season, March, April, and May, we shall be able to do with all the tonnage we can get. Money continues abundant, but a reaction has taken place in the premium of Paper notwithstanding. Shares, however, show no decrease of firmness, and our quotations for Spinning and Weaving Companies give a further general rise on the week. So far the improvement is fully justified by the exceptionally favourable position of the industry, all the Mills being fully employed at paying rates; and it is only to be hoped that having so much to foster it, the tendency to speculation now apparent may be confined within legitimate bounds. In the meantime the advance in values has been most opportunely availed of by the directors of a number of companies by adding to their share capital to get rid of the heavy charge for interest on borrowed money which some of them laboured under. In most instances the new shares have been taken up at par, but in the case of the Oriental Spinning and Weaving Company the new shares of Rs. 125 each have found takers at Rs. 20 premium. The advantage of this course is not alone the saving in interest effected, but in unfavourable times such as the crisis of two years ago it secures a company against the possible result of any sudden change in the Money market.

MONEY.—The last published return of the Bank of Bombay for the week ending on 6th instant showed a reduction in the Government balance of 4 lacs and in Deposits of Current Loans and Discounts a corresponding increase. Local business, except this, however, investments in Government Securities were reduced by 12 lacs, so that the Cash Balance was only lowered by two lacs. The return was thus decidedly less favourable, whereas a considerable reflux of Cash to the Bank had been generally anticipated after the holidays. The position of the Bank, however, is yet much too strong for any small movements of this kind to have any effect, and the outside market remains extremely easy, with little prospect of change so far as we can see this side of the New Year.

EXCHANGE.—With the exception of an interval in the middle of the week sterling has again been weak with only a small business passing. For the mail we opened on Monday on the basis of 1s. 7¾d. for demand Bank and 1s. 7 31-32d. for 4 months' Credit bills, but during the day the latter gave way 1-32d. On Tuesday the Banks made no change in their buying rates, but they reduced their selling quotations 1-32nd to 1-16d., and at one time 1s. 7 11-16d. was the highest figure named for demand. Owing, however, to the quotation for Bar Silver from London on Wednesday coming 1-16d. higher at 51¾d. per oz., a recovery of 1-32nd. took place; and yesterday, the fact of Council drafts having brought 1s. 7 13-16d., or about 1-16d. more than was generally anticipated, induced a further rise of 1-16d. The firmness, however, was but short lived, as to-day a quieter feeling has again been apparent with a decline of 1-32d., making closing quotations:—Bank Bills on demand 1s. 7¾d., Telegraphic 1s. 7 23-32d., 3 months' sight 1s. 7 27-32d.; Credits, 3 months' 1s. 8d.; Documents, 3 months' 1s. 8 1-32d.; Francs, 3 months' 2 11½ per rupee.

Actual transactions during the week have been limited in ready bills, and for future delivery equally small; the slight recovery in rates inducing remitters to hold off in the hope of a further advance, whilst sellers on the other hand having generally negotiated something at lower figures have been equally independent. Neither side, however, showed any strong belief in the slight recovery being at all permanent, the surroundings of the market at the moment being so evidently weak; but that the latest impression exists that we may ultimately see a considerable recovery, is very evident from the way the Banks at once decline to buy forward the moment the least upward tendency is apparent. On Wednesday, for instance, it was impossible to get a buying quotation beyond the end of the year, but finally bills would be placed up to May at an advance of ⅛ per rupee per month on to-day's rates, whilst demand Bank Bills can be had for February March at 1s. 7¾d., and for April-May delivery at 1s. 7 15-16d. per rupee.

Our latest quotation for Bar Silver from London is 51 13-16d. per oz., equivalent to about 1s. 7¾d. per rupee, and some people seem to see a certain amount of strength in the fact of Silver keeping higher than Councils, and those again higher than ordinary exchange. For our own part, however, we consider this merely the outcome of the position as to present; and the halting way in which these figures have respectively followed down the rupee, stage by stage, is only evidence of the reluctance in some quarters to accept the inevitable. At the present moment, to our thinking, everything points to a further decline before the setting in of any permanent recovery.

On Calcutta, the quotation to-day for demand drafts is 1-32d. per cent. premium, 60 days' sight nominal. On China, we quote 60 days' sight Mercantile Bills at Rs. 219 per 100 dollars. From Hongkong, the latest quotation for 4 months' sight Bank Bills on London is 3s. 9d. per dollar, and from Shanghai 5s. 1½d. per tael.

GOVERNMENT SECURITIES.—Last mail-day paper was very strong, and a large business was done both for ready and forward delivery, rates advancing to Rs. 98⅛ for Fours and Rs. 107½ for Fours-and-a-half. This, however, proved to be the top of the market, as attracted by the prices sellers came out freely, and since then values have steadily receded until we have now to quote—Fours Rs. 97⅞ ¼, Fours-and-a-half Rs. 106⅜. For March delivery the latter has been sold at Rs. 105. At the close to-day the market is perhaps a shade steadier at these quotations, but it lacks the activity previously apparent.

SHARES.—A very strong feeling has prevailed since last mail left, and day by day prices have continued to advance. In *Bank* shares we have to quote an advance of Rs. 11½ in Bank of Bombay, and *National* are also Rs. 3 higher. In *Local* Companies there has been little doing, and Colabas, which are Rs. 5 lower, are the only shares in which there has been any change. *Press* Companies are all strong in anticipation of a good Cotton season, and our figures show a rise of Rs. 75 in Fort, Rs. 50 in Mofussil and Sassoon, Rs. 38 in Branch Cotton Co., Rs. 10 in Albert Co. of Kurrachee and Berar. *Spinning and Weaving Mill* shares have been in very active request throughout, and our list quotes an improvement of 5 to 10 per cent. all round. Speculation has of course a good deal to do with this, but so far it is speculation of a legitimate character, as the Mills are all earning profits fully proportioned to the prices at which their shares are now quoted. Amongst *Miscellaneous* Companies we quote an improvement of Rs. 60 in Bombay Burmah Trading, Rs. 50 in Bombay Saw Mills, Rs. 15 in Prince of Wales Insurance, and Rs. 10 in Thacker and Co., Limited.

PIECE-GOODS.—In the early part of the week the market ruled very slack, the clearances from the bazaar only running about 300 packages a day, but dealers having reduced their prices ½ to 1 anna per piece, more buying has taken place within the past two or three days, and the total clearances may be put at about 2,300 to 2,500 packages. The demand has run mostly on standard makes of Shirtings, 39 and 44 inch, but there has also been a fair extent of business done in Madapollams and Jaconets. Of all descriptions, however, stocks are liberal, not only on the spot but to arrive, and the dealers have always ready to offer concessions to effect clearances than add to their holdings. The transactions from first hands have consequently been limited, nor are they likely to assume larger lines until the existing pressure of stocks here is relieved. This seems likely to take some time, as although the condition of things in the Bombay Presidency is in favour of an active demand, accounts from the large consuming centres of the North-West are much less hopeful, and a good deal will depend on how matters go there, whether we see a more active enquiry set in.

In *Local* Goods there has been rather less doing of late, the clearances this week being put at 1,500 to 1,800 packages at As. 8¾ to As. 8¾ per lb.

TWIST.—For English Yarns the enquiry both on the spot and to arrive is limited in the extreme, and for 40s Mule we reduce our quotations ¼ anna per lb., while other counts, although nominally unchanged in value, are most difficult of sale. Stocks are large, and the quantity on the way is also heavy, so that there seems little hope of an improvement in the immediate future unless home advices come stronger. Of *Local* Yarns the sales this week have been about 1,400 packages at barely previous prices, say As. 7¾ to As. 7¾ per lb. These figures, however, still pay the Mills well.

METALS.—*Copper* is quiet at previous values. Supplies are not excessive, and the present rate of exchange puts arrival business out of the question, so that future prospects are fairly good. *Yellow Metal* has been firm, and business has been done at an advance of As. 4 to As. 8 per cwt. *Iron* is dull with only a small business passing, and for Bars we reduce our prices As. 8 to Rs. 1 per candy. Stocks are heavy.

COALS.—With the exception of two steamer cargoes sold to arrive, at Rs. 10, there has been no fresh business reported from first hands since last mail left. There is, however, a fair enquiry at current rates, but the decline in freights and the difficulty in finding outward tonnage has damped the sellers out of the market.

COTTON.—As a general rule we have had very quiet markets throughout the week, and for export there has been very little doing. Prices may be quoted partially Re. 1 to Rs. 2 per candy lower, but even with this decline we are a long way ahead of home prices for New Crop, and old Cotton is barely saleable without margin [illegible]. The purchases during the week, irrespective of buying by the local Mills, only makes a total of about 1,500 bales, made up of about equal quantities of Old Omra and Dholleras. Stocks are gradually increasing on the spot, and in the course of a few weeks, business will doubtless become more profitable.

New Crop reports continue most favourable, and in another fortnight we shall probably be in receipt of sample parcels of Hingunghaut, and early in December of Omras. With the Muharrum holidays falling next month, we cannot, however, have any arrivals of importance before the New Year. Hingughaut and the first arrivals on Omra will probably show a good deal of black leaf and stain, but so far as can yet be seen, the bulk of the Crop will be of excellent quality.

The *Receipts* from up-country to date give the following comparisons:—

	1880.	1879.	1878.
For the Week	6,250	4,854	3,818
Since 1st September	17,252	63,454	31,145
Since 1st Jan.	1,102,099	829,224	889,546

The *Clearances for Sea* since the departure of last mail have been 3,118 bales, making a total of 883,392 bales since 1st January, against 625,003 bales for the same period last year.

The following are to-day's quotations for Full-pressed Cotton with the equivalents in Sterling, Cost, and Freight to Liverpool, via Canal, without Commission:—

	Per Candy.	Per lb. C. & F.
Old Good Omra (Nominal)	Rs. 320	5d.
" F.G.F. do.	" 302	5 7-32d.
" G.F. do.	" 293	5d.
" Good Dholleras (Nominal)	" 207	3 11-32d.
" F.G.F. do.	" 199	3¾d.
" G.F. do. Dec. delivery	" 199	3¾d.
" G.F. do. Ready	" 192	3 21-32d.
" G.F. Comptah	" 183	3 15-16d.
" F.G.F. Ginned Dharwar	" 129	3¾d.
New Akote (March delivery)	" 216	5 19-32d.
" Good Omra do.	" 214	5 17-32d.
" F.G.F. do.	" 210	5 7-16d.
" Good Hingunghaut, Feb. delivery	" 231	5 15-16d.
" Good M. G. Broach, March do.	" 228	5¾d.
" F.G.F. Dholleras, May delivery	" 201	3¾d.

SEEDS.—*Linseed* has been weaker of late, and we now quote ready at Rs. 6-14 to Rs. 6-15 per cwt., and April-May delivery Rs. 6-8 per cwt. At these prices, however, there is some little buying going on. *Rapeseed* is steady at Rs. 5-14 per Khandesh Mixed, and Mhow, Malwa, and Omra are no stocks. *Gingelly* is dull, and we now quote Mixed at Rs. 40½ to Rs. 41, Red Rs. 37 to Rs. 39 per candy. Arrivals will be late, as the Khandeish Crop is likely to prove very limited.

IN WHEAT transactions have been materially restricted of late by the advance which has taken place in freights. Within the past day or two, however, there has again been more doing, and we still quote Soft White at Rs. 31-8 to Rs. 32 per candy.

Messrs. C. MARCKS & COMPANY,
OF
BOMBAY and POONA,

HAVE the pleasure of announcing that Mr. A. MENIST, Oculist's Optician, of Amsterdam and London, has appointed them AGENTS for the sale of his celebrated PERFECT SPECTACLES AND EYE-GLASSES. MENIST makes his Frames of Gold and Silver only, which have been found to be the best metals for the purpose, his object being to obtain perfection as nearly as possible, without regard to cost. He does not use steel, for this metal rusts, and the joints become loose, altering the focus of the glasses, and so injuring the eyes; neither is there any economy in it, for in this climate it corrodes so quickly that it must be often renewed, while Gold or Silver are practically everlasting, and Aluminium cannot be used, for it leaves an idelible mark on the skin wherever it comes in contact with it.

MR. MENIST'S NON PRESSURE EYE-GLASSES have a spring so made that it may be twisted in any direction without breaking, and they maintain their position when worn without any pressure or leaving any mark when removed.

His 12-lens "DUCHESSE" are all Achromatic and as powerful as Field Glasses.

His FIELD, MARINE, and OPERA GLASSES may be used for hours without causing the eyes to ache.

MR. MENIST has left instruments with Messrs. C. MARCKS and Co. which enable them to test each eye separately, for it frequently happens that they differ more or less in power.

MESSRS. C. MARCKS and Co., for the convenience of clients who may not wish to purchase Mr. MENIST'S GLASSES, have also in stock some of their own manufacture, at lower prices, in Gold, Silver and Steel frames, and though the quality of the lenses is admittedly not equal to those of Mr. Menist, still it is very good, and much superior to most of what is sold as the "finest Brazilian Pebbles."

Pamphlets may be had on application.

BOMBAY EDUCATION SOCIETY.

BYCULLA SCHOOLS. Day scholars are received on payment of fees varying from Re. 1 to Rs. 5 a month according to standard. Half fees for 2nd and all other children of the same family: Standards 1–8 in the Boys' School.

Byculla, 3rd Sept.

NOTICE

MESSRS. C. MARCKS and Co. are happy to announce that, in consequence of continually increasing sale of Mr. MENIST'S CELEBRATED SPECTACLES, EYE-GLASSES, &c., for which they are the appointed Agents, they are enabled to make a REDUCTION OF TWENTY PER CENT. on the former prices, thus placing these VALUABLE AIDS TO DEFECTIVE VISION within reach of EVERYONE.

SATURDAY, NOVEMBER 13, 1880.

ONE of the many high-handed measures which Lord Salisbury planned and carried out—after receiving and considering in the usual manner a consensus of opinion on the part of competent authorities against the innovation—was a complete revision of the rules and regulations for the Indian Civil Service examination. It is the misfortune inseparable from the procedure which Lord Salisbury took, after his wont, in this matter, that measures which owe their existence to the will of one man are exposed at least to the danger of losing a great measure of their *raison d'être* when their creator has fallen from power. Some may have justified the tenacity of purpose to which they owed their inception; others may find in obscurity and futility a dishonourable safety: but those succeeded in disarming the hostility with which they were originally received, will infallibly come up for revision, as the important matter to which we are referring has now done.

The question, we see, has been raised simultaneously in two very different directions. A blow was struck by Lord Salisbury's innovation at the Scotch Universities, which was deeply but ineffectually resented. Under the old regulations the examinations, both first and final, were perfectly free: that is to say, no restriction was placed on the student as to where or how he should continue his studies. Lord Salisbury's scheme insisted on the student spending part at least of the interval between the two examinations, during which the selected candidates are virtually on probation, at a University, under certain guarantees as to residence and moral conduct. Now, as is well known, none of the Scotch Universities concern themselves in any way with matters affecting their students when not actually under instruction. The luxury of collegiate buildings, the tyranny of a gate-system, the piquancy added to the pursuit of sin by the establishment and maintenance of a separate detective moral police are all to them unknown. In the class-room the student is amenable to their discipline: beyond the class-room he is for them an ordinary member of society, amenable only to the laws that are found sufficient for the rest of his fellow-citizens. Should he infringe these laws in a matter or manner involving personal disgrace, his exposure will doubtless involve expulsion from his University, as it would involve expulsion from a club or from Her Majesty's service. But the University accepts no special responsibility in the

THE Rajas of Jhind and Nabha have subscribed Rs. 50,000 each to the Patriotic Fund.

THERE are, it is said, at present no less than 2,395 candidates for the coming entrance examination at the Calcutta University.

A COMMITTEE has been appointed in Calcutta for the purpose of collecting funds for the relief of the distress that has so long prevailed in Armenia.

AT Umballa, on the last day of the races, the *Lion* says, matters were nearly proceeding from words to blows over the running of two horses in one of the races when the worst favourite of the two at the lotteries won. Such scenes are disgraceful, and stewards of other meetings should make a note of them.

THE paper concerned states that the "*Indian Medical Gazette* Defence Fund" grows, thanks to sympathizing and generous brethren. The appeal against the judgment of the Allahabad Rhodamanthus will be heard as soon as the courts re-open, and we hope that an early day will be fixed for the hearing of it. The case has naturally excited the interest of the press and public, and the questions of liberty and privilege involved in it, which the magistrate's judgment has vitally touched, are such that an early and authoritative decision of them is eminently desirable.

THE Afridis of Khee and Tirah, the Lahore paper hears, have been showing their teeth. A small force is making a course of construction on our part at the village of Bahd to serve as a refuge and protection for the people of the Bahmand district. The superintendence of the construction of this fort was entrusted to Mir Ameel Khan, a young native officer, a son of Arbab Surfaraz Khan. The coolies described on rising fort during the night. They next attempted to attack a small fort situated on the Kohat road, but Mir Ahmed Khan, in revenge for the mischief to his work at Bahd, attacked the Afridis with a small party of sowars the night of the 3rd November, killing three and. Two of these were identified as the Zakka Khel tribe, and the third proved to be one of the Koki Kheyls. Mir Ahmed Khan appears to have behaved with great courage and skill, and succeeded in releasing a captive in the hands of the raiders, a Punjabi merchant, who, coming in from Bokhara with goods, had fallen in with the thieves. On the night of the 4th November, the Afridis of the Koki Kheyl tribe attacked the British villages of Regi and Shahi, and made off with 140 camels, the property of Government.

A VERNACULAR newspaper published in Lahore states, on the authority of an Afghan correspondent, that the news of Abdul Rahman's murder is correct, and that Mahomed Jan was present in Kabul at the time that the murder took place. The *Civil and Military Gazette* hears from Peshawar that a rumour has been current, though as yet unauthenticated, that Mahomed Jan headed the revolt against Abdul Rahman Khan, and having deposed him, directed that the Amir should return to Balkh. But the news is doubted by many Afghans, who witnessed the cordial reception of Mahomed Jan by the Amir. It is said that the Sirdar invariably attended the Durbar of the Amir armed and escorted by forty or fifty armed men. His brother, Afzul Khan, was appointed Commander-in-Chief, and Mahomed Jan himself was made first Minister. The Lahore paper remarks:—The length of time which has elapsed since any news has been published from Kabul seems to strengthen the rumour above-mentioned. But in any case the advent to power of Mahomed Jan and his brother is tolerably conclusive of hostility to British interests. The Amir's reception of Mahomed Jan was so marked by favour that the latter's design of proceeding to Mecca is abandoned. The Amir, it is said, left the city and went to welcome the General into Kabul. A not improbable explanation of the situation may be that Mahomed Jan and Abdul Rahman Khan have patched up their reconciliation at our expense. Such a solution as this is strictly in conformity with the ordinary course of Afghan policy, and a defiant note from the Kabul Foreign Office, on the strength of such a coalition, may reply at once to Mr. Griffin's speeches and to the sanguine expectation of the British Cabinet of a peaceful settlement.

SURGEON-MAJOR MORTON, whose serious illness from dysentery at Kandahar we noticed some time since, has arrived at Kurrachee, "so dreadfully brought down, even to death's door," as the local *Gazette* expresses it, that he had to be carried from the station to the Indus Valley Hotel on his arrival. We hope, however, the entire change—especially to sea air—will soon restore him to his wonted state of health and the companionship of his friends. The regiment to which he belongs—the gallant 2nd Beluchis—has received its full meed of praise from Sir Frederick Roberts, and we hear that its gallant commander, Colonel G. V. Tanner, has been strongly recommended for a brigade command by the General. The holding of Khelat-i-Ghilzai was no mean feat of arms. Had it fallen by any attack, the advance of Roberts' "ten thousand" might have been very seriously embarrassed by the untoward event.

THE *Indian Medical Gazette* is indignant at the fact that "medical advertising, pure, simple and direct, is rampant in Calcutta. The first page of one of our daily contemporaries presents habitually no less than three advertisements,—two of them parading the names and hours of business of English medical practitioners with, we presume, English qualifications. One of these gentlemen acts so small value on this professional advice as to advertise that he will not be at home on Sundays, and makes it known that he is a vendor of drugs. The third advertiser is, if we are not mistaken, a graduate of the Calcutta Medical College. This sort of thing reduces the medical profession to the level of a trade. The *Lancet*, in a recent issue, declares that 'All advertisers are to be avoided as men outside the pale of professional intercourse,'—a deliverance in which we heartily concur. A medical man should prefer to starve rather than degrade his calling, but fortunately there is not the slightest necessity for either alternative."

THE swindling manœuvre tried by a native, some time ago in Madras, has been repeated in the Punjab. A blind man, in the Rawal Pindee district, gave out that anyone who would like to have any amount of money doubled without any cost or trouble might offer that amount to him, and he would receive twice as much on a certain day in the month, when the blessing of God would pour upon him; and any number of rupees that there would be with him on that day would be doubled. The credulous natives swarmed like bees to the man, some with a hundred rupees, some with a thousand, each according to his means. In this way thousands of rupees were placed at the disposal of the Inspector Hafiz, as he was called. When the day of promised *blessing* arrived, the Hafiz began to show signs of despair, and gradually the duped believers began to have recourse to judicial process. Some two hundred plaints have been filed, while there is no clue to the money. The Hafiz is under arrest, and it remains to be seen what will be the result.

THE *Times* has a suggestion worthy the consideration of the stewards in Bombay, Poona, and elsewhere in India. "We said in our last number that the starting at Umballa had been bad, and after the second day owners could stand it no longer; so Mr. Whitehead was asked to undertake the thankless office, which he did to the satisfaction of everyone on the two last days. Why do not all the principal race-meetings in India combine for a fund to have a paid starter, and appoint Mr. Whitehead the McGeorge of India? There is always a sufficient interval between the big meetings for him to be able to get from one to the other in these days of railways, and the expense would not be much among so many. Experience is required to make a good starter, and this amateurs seldom possess."

THE *Englishman*, in calling attention to the fact that the Queensland Government have offered to buy up the first 500 tons of marketable iron produced from Queensland ores at a rate of £10 the ton, says that the adoption of some such step as the above on the part of the Government of India would go a long way to induce the application of capital to the working of the neglected iron-fields of India, as furnishing some guarantee on the expenditure of the initial steps of such an undertaking.

IT appears that the pack-saddles used in Afghanistan have commended themselves to the Russian Minister of War. A consignment of 5,000 are said to have been ordered in England, and are to be forwarded for use in the operations going on against the Turkomans. The saddles have been ordered to be made in England in preference to the home makers, it is said, in order "to secure good workmanship and leather of undeniable quality."

FROM Australian letters the *Pioneer* learns that the Indian contributions to the Melbourne Exhibition have been successful in attracting the attention of our colonial cousins to the products of this country, and have stimulated inquiry among the commercial classes of Australia in more than one direction. Tea, which the co-operation of the Chamber of Commerce in Calcutta with the Government of India has, by the formation of a tea syndicate, made prominent among the exhibits, has become the subject of some excitement. And the first sales, which took place just before the departure of the last mail, aroused considerable interest. The jail carpets of North India were finding favour in the Australian market, although there is a dangerous tendency to prefer new to old patterns. Cotton goods are admired, but there is probably little chance of them competing with the produce of Manchester in Southern Australia, although in the warmer climate of the northern provinces, the lighter classes of goods may possibly succeed. Ornamental work of some classes is much admired and readily bought, Benares brassware, as the most showy and cheapest, finding most purchasers. The Indian Court is said to be one of the most attractive in the Exhibition. The prices obtained at the tea sales were most satisfactory, and more than realized the expectations of the most sanguine. Considerable interest has been roused not only in Melbourne itself, but also in the inland towns, and applications have been received from all quarters for consignments of Indian teas. The produce exported from the Calcutta market, perfectly free as it is from adulteration, must, when given fair trial, gain a precedence over the China exports: and we are now assured that, owing to the practical steps taken by the Government of India in co-operation with the leading merchants of Calcutta, a fair trial will be made.

OF the state of affairs in Egypt, a contemporary's Alexandria correspondent writes, under date 21st October:—As you will have seen from telegrams and other sources of information, the seven years of famine in Egypt seem likely to be followed by seven years of plenty. Irrigation is going on splendidly, according to all accounts. Last year's magnificent cotton-crop will not, it is true, be equalled in the present season, but the yield will be, at all events, rather above than below the average. The produce is beginning to come down fast from the interior. More would be brought to market, but for the fact, that the "fellaheen," not being pressed for taxes under the new *régime*, are in no hurry to dispose of their crops, and therefore stand out for good prices. What a change from the time of Ismael Pasha, when the small farmer had to hypothecate his cotton to Greek and Syrian money-lenders almost before it was above ground! The President of the Council, Riaz Pasha, has prepared a budget for the coming year, showing a surplus of £242,332, besides a reserve of £347,000 to meet unexpected contingencies. Again what a contrast! The value of the imports and exports during the first six months of this year, too, was £10,141,841 as against £7,306,512 in 1879. The only change in the condition of Egypt is, it will be seen, one for the better, regarded from every point of view, and one can only hope it may last. Of this, there seems every probability, at least as long as those two Colossi, the English and French Controllers General, remain installed in Cairo by the side of the young Khedive.

BOMBAY.

TO-DAY.

Temple Bar, Concert at 9 p. m.

VESSELS ARRIVED.—The following vessels arrived yesterday:—Burmah (s), from Bussorah; I. G. S. Dalhousie, Kurrachee.

NOTICE.—Revd. W. B. Osborn, of Madras, will preach (D. V.) in the Grant Road Methodist Church on Sunday evening at 6 o'clock. All are welcome.

THEFT AT LOHAR CHAWL.—Wamonbhai, a woman, residing at Lohar Chawl, reported to the police yesterday the theft of two silk *sarees*, valued at Rs. 200, from her residence, sometime between the 31st October last and the 7th instant. Enquiries are in progress.

ROBBING A CHILD OF ITS ORNAMENTS.—Ahmed Ali Mahomed was yesterday convicted by Mr. P. Ryan of stealing a gold neck-ornament, valued at Rs. 50, from the person of a child of Kessowjee Jetha, in Sonar Chawl Street, on the afternoon previous. He was sentenced to six months' rigorous imprisonment.

A DISHONEST SERVANT.—A woman, named Rama, a servant in the employ of Fazabhoy Vistam, was yesterday convicted by Mr. P. Ryan of stealing sundry gold and silver ornaments and wearing apparel, of the collective value of Rs. 70, the property of her master. She was sentenced to one month's rigorous imprisonment.

A DISHONEST SERVANT.—A woman, named Rama, a servant in the employ of Fazabhoy Vistam, was yesterday convicted by Mr. P. Ryan of stealing sundry gold and silver ornaments and wearing apparel, of the collective value of Rs. 70, the property of her master. She was sentenced to one month's rigorous imprisonment.

GAMBLING AT AHMEDABAD.—The Dewalee festival at Ahmedabad is celebrated partly by gambling, in which respectable people, and even persons employed in Government service, take part. Nor is it done very privately, for, according to a local paper, even in public streets people are seen freely gambling. The paper complains that the police, either through ignorance or purposely, allows this state of affairs to exist.

ARREST OF A EUROPEAN.—A European named John Macdonald was arrested on Thursday evening last by Mr. Superintendent Crummey upon information forwarded from [illegible] the prisoner is alleged to have stolen a sum of Rs. 625, in September last, belonging to a Mr. Usher, of that place. The prisoner is detained in police custody, pending receipt of further instructions from Rawul Pindee.

HARVEST FESTIVAL AT THE CATHEDRAL.—To-morrow (Sunday, the 14th) will be observed at the Cathedral as a day of special thanksgiving for the harvest. The church will be decorated, and special psalms and hymns used. The sermon in the evening will be preached by the Right Rev. the Lord Bishop, and the offertories of the day will be in aid of the Indo-British Institution, which is sadly in need of funds.

THEFTS.—Goolabkhan Natakhan was yesterday convicted by Mr. P. Ryan of stealing a cap, valued at one rupee, from the person of the child of Mohideen Abdool Gunney, while the child was lying asleep at the shop of its father in Cazee Mohla. He was sentenced to three months' rigorous imprisonment.—Mahomed Cadur was also yesterday convicted by the same magistrate of stealing a quantity of wearing apparel, valued at Rs. 10, belonging to Sheraz Jadow, and was sentenced to one month's rigorous imprisonment.

ARRIVAL OF THE DALHOUSIE.—The I.G. S. Dalhousie, Captain W. Powell, arrived in Bombay harbour yesterday from Kurrachee, which port she left on the 9th instant, with 8 officers, 447 European officers, 107 European invalids, sick, &c., 13 women, and 16 children, 36 follow ers, 8 horses, and remains of the the late Brigadier-General Brooke. The following is the list of officers:—Brigadier-General Nuttall, Staff; Major Burnett, Staff; Major Adam, Staff; Major Wilton, Staff; Lieut. Domville, 5nde Horse; Lieut. Potts, R. H. A.; Lieut. Grove, 61st Foot; and Surgeon Kelsal, A. M. D.

A NEW NATIVE FIRM.—Commercial prosperity during the past season in Bombay has had the effect of inducing some old and experienced native merchants who had been resting for a while to start afresh in business. Among them may be prominently mentioned Srimant Venayekrao Ganesh Kibhay, a Hindoo millionaire of Marwar, who some years ago was well known in Bombay by the banking and mercantile transactions which he carried on on an extensive scale, and who has from the Deewalee just passed opened a new firm in his own name in Kalbadavi Road. Mr. Venayekrao is acknowledged to be an enterprising and shrewd man of business among native merchants, who attended in large numbers at the inauguration ceremony performed at the place of business of the new firm, and wished success to the enterprise of its owner. Large sums of money were given away in charity to Brahmins and others on the occasion, and a feast was given to the bazar merchants.

BOMBAY MUNICIPAL CORPORATION.

THE adjourned meeting of the Corporation was held yesterday afternoon. On the consideration of the new works in the budget estimates for 1881, Mr. Nowrojee Furdoonjee said he had a proposition, but not in the form of an objection to submit. He proposed that the separate items in regard to improving the Tulsi water supply should be amalgamated. One item was for making Tulsi dam 6 feet, at an estimated cost of Rs. 58,000, and another was for special improvements to the Tulsi water supply, Rs. 60,000. These might be made into one item of Rs. 1,18,000 for the purpose of increasing the storage capacity of the Tulsi lake to the extent of raising the dam 10 feet. It was absolutely necessary that the Tulsi supply should be increased, not only for domestic consumption but for drainage purposes. The important section of the drainage works now under construction would soon be completed, and then an additional supply of water would be required, or the drainage scheme would be a failure. They would remember that there was sometimes a short rainfall, and in such a case if the capacity of the Tulsi lake was increased, so that it would be able to hold more than a year's supply, no need scarcely point out to them how valuable this would be. Mr. Hormusjee Dadabhoy remarked that the third item referred to by Mr. Nowrozjee contained no precise information, and did not state what works were intended to be carried out at an expenditure of Rs. 60,000. The Municipal Commissioner said that when the list of new works was being considered, it was first proposed that the dam should be raised 3 feet, so that two months extra supply might be obtained. It was afterwards proposed to be raised 6 feet, and Rao Saheb suggested that a further sum of Rs. 60,000 should be set aside with a view of raising it 10 feet. They had first to ascertain how much land would be required to be submerged. Until he had received the report upon the subject, he could not say how much additional land would have to be purchased. Some discussion then took place as to whether the dam was strong enough to bear being raised an additional 10 feet. One or two members expressed an opinion that nothing should be done in the matter until the independent engineer's report had been obtained. Mr. Barrow then read a letter from Mr. Forde upon the subject. He strongly urged the 6 feet addition, and said that if it were not for the land difficulty he would add 10 feet. Mr. Goodlad, in seconding Mr. Furdoonjee's proposition, further pointed out, and said that the masonry dam as it stood was, no doubt, amply strong enough to bear the additional 10 feet proposed. He also showed that it would be to the interest of the Corporation to have a supply in the Tulsi lake, and when they had to take the water from the bottom of the lake it was unfit for use, and even a horse refused to drink it. After some discussion a number moved that the consideration of the matter be deferred until ex[illegible] has, from various causes which we need not refer to particularly, drifted to a very low ebb, but it has begun to revive, now that a new master and mistress have been secured, in whom parents and pupils apparently place full confidence. The school has yet some uphill work to recover the past, but we hope the new year will do much for it in that respect. In his address (at the annual meeting) last Saturday, the Commissioner, Mr. Erskine, alluded to the great advantages this institution offers to parents residing in the unhealthy climate of Upper and Central Sind, and especially to those connected with the various Departments of Public Works who could not afford to send their children to England. We hope, as public confidence in the institution is restored, the empty dormitories Mr. Erskine complains of may be filled. We have no doubt that under the new *régime* all grounds of distrust and complaint will speedily disappear, and that the school will become worthy—numerically and in *real* worth—of the noble building in which the energy and perseverance of its real friend—Mr. Stracey—found it an abiding place.—*Civil and Military Gazette* (Scinde Issue).

DEPARTURE OF THE SERAPIS.

THE Troopship Serapis, Captain Guy O. Twiss, will sail to-day for England *vid* Aden, with 18 officers, 3 ladies, 4 children, 719 men, 31 women, and 67 children of British regiments. For Aden—55 officers, 5 ladies, 7 children, 236 men, 91 women, and 60 children of British regiments. The following is the list of officers whose names were not published in our issue of the 11th instant:—

RETURN OF THE 66TH REGIMENT TO KURRACHEE.

THE remainder of the 66th Regiment, consisting of 15 officers and 450 non-commissioned officers and men, arrived in Kurrachee from Kandahar on Sunday last in excellent health and spirits, and marched to the barracks from Frere station at 4-30 p. m., being played in by H. M.'s 3rd Regiment N. I. The names of the officers are—Lieut.-Col. S. G. S. Hogge, Major J. T. Ready, Captains J. Quarry, W. A. D. Mackinnon, and W. Beresford Peirse, Lieutenant Smith, and Assistant-Surgeon Dalla M. Faunce, J. W. Fitzgerald, M. L. E. Donel, C. M. Edwards, H. Lynch (wounded), W. Lonergan, 2nd Lieutenant and Acting Quarter-master G. L. Mellis, Paymaster E. G. P. Mayers, and Surgeon-Major Waghorn. The 66th left Kandahar on the 1st October and were played out of the city by the Bands of H. M.'s 7th Fusiliers and 4th Rifles. Generals Primrose and Burrows and the whole of the staff, as well as the officers of the Garrison, saw the regiment off. General Primrose took the opportunity of addressing the men, and paid a well-merited tribute to their gallantry and devotion to duty at Maiwand. The regiment reached Quetta on the 14th October and remained there till the 27th. The bands of the 78th Highlanders and the 13th N. I. which played them in on their arrival at Quetta played them out on their departure. They reached Pir Chowkey on the 3rd instant and started thence for Kurrachee on the 5th. It is gratifying to learn that they were hospitably received at every halting place between Kandahar and Kurrachee.

The *Civil and Military Gazette* (Sind Issue), from which we extract the above particulars, asks:—"Is anything to be done to honour them—as a correspondent proposed some time ago in our columns—by way of a dinner or otherwise, in the way of public recognition?"

THEFTS ON THE NIZAM'S RAILWAY.

(FROM OUR OWN CORRESPONDENT.)

MOLARUM, Nov. 9.

FOR some time past complaints have been received by the Nizam's Railway authorities at Secunderabad from passengers down the line of articles having been pilfered from their boxes which were carried in the luggage-van. As the notoriety of the travellers were through passengers, and none of them had examined the contents of their boxes, &c., at each of the junction station of the N. S. Railway, it was, of course impossible to say whether the thefts were committed on other lines or on the N. S. Railway, until recently, when people who had taken return tickets from Hyderabad to Goolburgah were similarly robbed. This fact proved that some of the employés on our railway were the culprits. The hundreds of people who visited the Goolburgah fair gave the miscreants, who have been apprehended, an opportunity of escaping a fine harvest. Two guards, one a Madras Eurasian and the other a Bombay Portuguese, who only drew Rs. 15 a month each, having excited the suspicion of the railway authorities from the way in which they were "swelling" it, with expensive tweed suits, English boots, &c., the police, armed with a search warrant, repaired to the house in which the men lived, and soon discovered in a chest-of-drawers a quantity of valuable jewellery, some women's silk clothes, and a number of English boots, &c. When very recently a Mr. Ingleton, a merchant of Hyderabad, left Secunderabad on the 6th instant by the Bombay mail, he discovered the loss of his boots, which had been stolen from under the seat in the carriage in which he travelled. Information was given to the police, and the thief was soon discovered in the person of a native passenger, who had left the train at Wadi Junction. He was arrested, and the boots found in his possession. He was brought to Secunderabad, and sentenced to three months' rigorous imprisonment. The thief, it is said, has confessed to the theft of a number of articles from passengers' boxes, and the police are now engaged in tracing out the property.

THE APPROACHING MUNICIPAL ELECTIONS.

As the day appointed for the Municipal elections approaches, the local vernacular papers cry out more and more against the manner in which the citizens of Bombay use their prerogative of electing their Municipal representatives. The *Jame Jamshed* relates its own experience of how votes are obtained by certain gentlemen, not only for themselves, but for their followers, and how many voters readily give up their votes as if the very asking was a favour done them. In most cases those for whom votes are asked have, the *Jame* believes, no more knowledge of Municipal affairs than "bullock." have, but their allegiance to influential sheths carries them over the heads of more deserving men.

The *Rast Goftar* also is dissatisfied with the list of candidates, for, with a few exceptions, the men put forward have as yet shown no aptitude to undertake such onerous duties as those of a member of the Corporation. People who can put forward such men, and who will accept them, cannot be said to have any very clear notion of the elective privilege, the *Rast* thinks.

The *Bombay Samachar* considers that the electors should try to know more about their candidates and their opinions on prominent Municipal matters before returning them. The present mode of electing members almost blindly leaves the Corporationers free to lend themselves to one side or the other as suits their own convenience at the time, and makes them altogether irresponsible, whereas if they were bound down by their own expressions on certain important subjects, which may be expected to turn up before the Corporation, they would not be left so free as they have hitherto been to consider matters in the light of their own individual interests.

THE BOMBAY DEBATING SOCIETY.

ON Thursday last, at half-past five o'clock, the lectures in connection with the Bombay Debating Society were resumed before a pretty large audience composed of all classes of Bombay society, Christians, Parsees and Hindoos, a great number of whom had been seen regularly attending the meetings held four years ago. The lecture delivered, *On the nature of God*, was in close connection with those previously delivered and debated upon; the last of which was a very mo[illegible]

On the impossibility of eternal matter, in which the lecturer, Mr. Khurodjee Cursetjeewanjee Seroai, had proved the whole universe to be non-eternal, and the existence of a cause above it called God, to be an absolute necessity. The present development of the idea of God, as gathered from the existing world, was one step further in the progressed logical order of the lectures, which promise to comprise the entire field of philosophy and theology. One point touched upon in the course of the lecture was calculated to interest the Brahmo Somaj, which claims to be a theistical body; for it was stated that nothing was advanced in the first of the three series of lectures, that was not purely theistic and religious, but, on the contrary, the tenets of the human reason apart from all revelation. It would be interesting to compare the publications of the Brahmo Somaj with those of the Bombay Debating Society, in order to ascertain how much agree with one another, and how much differ. As the society has been changed to Wednesdays instead of Thursdays, both inconvenient and irregular, it is announced another lecture for Wednesday next at 5-30 P. M. in St. Xavier's College Hall, unless somebody come forward with objections against what was advanced in the last lecture, when, instead of the lecture, debates would be held on the points in question.

THIS was an action brought

A CALCUTTA GENTLEMAN'S OPINION OF MUNICIPAL MATTERS IN BOMBAY.

The *Hindoo Patriot* gives the following account of what Mr. Souttar, Chairman of the Calcutta Municipality, thinks of affairs municipal in Bombay, as the result of personal inspection and inquiries made during a recent visit to this city:—

Mr. Souttar arrived in Bombay on the evening of Monday, the 18th ultimo, and was met by Dr. Blaney, President of the Town Council, an old friend, whose guest he became. Fortunately, also, he found Mr. Barrow, Secretary of the Corporation, living with Dr. Blaney, so that he had access to the best sources of information at all times and with the least possible trouble. The morning of Tuesday had to be given to rest, but a long afternoon was given to a meeting of the Town Council, and to one of the Corporation which followed it.

These meetings are held in a large room available and, indeed, practically reserved for the purpose in the spacious office building which the Corporation is fortunate enough to occupy. This building was, it seems, built according to a plan approved by the Corporation, but is private property and was leased to the Corporation for a term of years at Rs. 3,000 a month. The lease has, however, been recently renewed at Rs. 1,500. This we mention as a typical instance of the change that has taken place between the days of the reckless Arthur Crawford and of the present careful Commissioner.

Mr. Souttar was struck with the difference between the almost ornamental furnishing of this public room and the severe simplicity of our own Town Hall with its common chairs and tables. A beautiful banner emblazoned with the arms of the Corporation was hung upon the wall behind the Chairman and added greatly to the effect of the gathering. The banner is, we may mention, the gift of a generous Justice. The Town Council, after disposing of some other business, went through parts of the Budget categorically and carefully, but, as Mr. Souttar remarked, without the sane minuteness which has been the practice in Calcutta in recent years. This, no doubt, is chiefly due to the very satisfactory financial position in which the Bombay Corporation now finds itself, and the confidence which it has in its present executive head, Mr. J. Hay Grant, C. S., the Municipal Commissioner. We hope that this experience may soon be capable of reproduction in Calcutta. We can testify to the weary hours spent over the details of many budgets. We shall hail relief with delight and no doubt it will gradually come.

The Municipal Office is admirably facilitates the prompt despatch of business. There are only twelve members, 8 appointed by the Justices, 4 by Government. They are moreover paid for attendance Rs. 30 per weekly meeting. The result apparently is to secure almost constant attendance on the part of the members, and in this way a full and continuous acquaintance with municipal business is no doubt secured. Mr. Souttar was greatly impressed by the completeness secured in the transaction of business at the Council; and by another result which was noticeable at the meeting of the Corporation which followed, viz., the readiness with which the Town Council's recommendations were accepted. The Commissioners having picked men to go into the details of municipal business for them, and, so to speak, having paid them for doing so, are apparently disposed to leave the responsibility, as far as possible, with those picked and paid representatives. With so careful and sound a head of the Executive as Mr. Grant, so public-spirited, energetic, and experienced, but withal careful, and economical a Chairman as Dr. Blaney, and with such members as the present Town Council consists of the Bombay plan, which, we may remark, is regulated by law, has been a decided success. But there are other considerations which cannot be overlooked. However, it is not necessary to discuss them here. Mr. Souttar is, we believe, to avail himself of an early opportunity to have the subject discussed by our own Town Council and Commissioners. We may, therefore, have to recur to the subject hereafter.

Mr. Souttar made the acquaintance of several of the members of the Corporation, both European and native. Among the former, he says, was the Editor of the *Bombay Gazette*, who, like his predecessor, Mr. Maclean, takes a hearty interest in municipal matters and contrives to find time todevote to them. Another Editor, Mr. Wood, is also a zealous member of the Bombay Corporation. We wish some of the European brethren in Calcutta would follow their example. We feel sure that one result would be as in Bombay to make the criticism of some of our contemporaries both more intelligent and more sympathetic, and that this would be to the advantage of both.

Next morning, Mr. Souttar was taken through the town to visit the markets, Crawford and others, by Sir F. Souter, the Commissioner of Police. The first named is in parts very attractive owing to the separation of the meat markets from the other, and the combination of fountains and gardens, and such pleasing features with others more practical. Mr. Crawford's market is, however, owing chiefly to heavy initial cost, not yet a financial success, in this resembling our own Municipal market. The markets that bring in revenue to the Municipality are some of the others, more purely native markets, of which the Bombay Municipality possesses several. Some are sources of great profit.

After spending part of the day with Mr. Grant, the Municipal Commissioner, Mr. Souttar devoted the afternoon to visiting the slaughter-house at Bandora in the company of the Superintendent of Markets. This is some ten miles out of town on the Bombay and Baroda Railway, and the animals are brought in by rail, until lately economy dictated a change to carts. The slaughter-house arrangements are like our own, complete and efficient. It has the advantage of a water-supply from a river from the main which passes close to it, as compared with ours which has a water supply of its own. But the features which ensure its success are a large and most profitable offal trade, which is part of the scheme, and the fact that the meat-eating classes [illegible] the meat-eating population of Calcutta [illegible] Parsees are great meat-eaters and there are many other native meat-eaters on that side of India.

The following day (Thursday) was spent by Mr. Souttar at the Municipal Office in conference with Mr. Grant, the Municipal Engineer in charge, the Health Officer and other heads of departments. The able accountant, a Parsee gentleman, was unfortunately absent on leave.

A very marked and valuable feature of the Account Department is the daily audit. The Corporation has two independent auditors, who sit at their work in the Municipal Office two or three hours daily, examining vouchers. There are no more than Rs. 5,000 a year between them. The result is that everything is well up to hand, and that clear balance-sheets under the main heads are published weekly. There is, we think, matter here for the consideration of our Commissioners.

The Health Officer, Dr. Weir, is in the sole employ of the Municipality at Bombay. He is an executive officer under the Chairman, and, in addition to the duties of our Health Officer, has charge of the conservancy establishment and arrangements. This system appears to have given satisfaction in Bombay.

With the Engineer in charge, Mr. Souttar went into matters in considerable detail both as to methods and results. His inquiries are beyond the scope of our present article, but we may note one or two advantages Bombay has over Calcutta. A chief one is in the Road Department in respect of the cheapness of good stone. There are quarries all over the island, and prices are low in proportion. In the matter of water-supply again the town receives about 14 million gallons daily from Vehar and Tulsi together, while our supply, roughly speaking, is about half; as their supply comes from a great elevation they have the further advantage of a constant and high natural pressure, which does away with the necessity of the pumping stations, which are so costly an element in our system. On the other hand, they do not filter, and are at present providing means for that and some needed storage by new reservoirs on the Malabar and Bhandarwada Hills, which are part of the town.

In drainage, we are far in advance. A small part of the town has been drained for some time in a partial and not very efficient fashion. Lately, a scheme has been begun, which will include the whole town. This is a heavy work which Bombay has still before it. In the evening Mr. Souttar had the advantage of another drive through the town, including a look at the Malabar Hill Reservoir, with the Commissioner of Police.

Next (Friday) morning Mr. Souttar devoted to out-door inspection with the Engineer, Mr. Braham, the Health Officer and Secretary to the Corporation. The most interesting feature was the Municipal cattle-yard, where the Municipality finds room for many hundred milch-cattle in especially constructed sheds. The accommodation is paid for and the system made self-supporting. The object is not again so much as improved sanitation and the testimony appears to be unanimous that the system is a success. There is matter for our consideration here.

Somewhat similar in principle is the dhobi-wada, or a establishment at the Municipality of the town are accommodated with the means of carrying on their business at fair rates. The Esplanade was used, we believe, for their location formerly, and as they had to leave this central portion of the town the Municipal authorities provided for them in the way stated.

The Lovegrove pumping station, where much of the town sewage is shot out into the sea, was also inspected, there, again, Bombay has the advantage of discharging its sewage at a much nearer point than our system renders possible. The chief sight of the morning was, however, the reclamation work, which has been going on for years, and will go on for many years to come, on the flats between Byculla and Vellar. The conservancy carts have to come but a mile or two and discharge their contents on these flats, which are thus gradually being reclaimed and turned into public gardens. There are also a source of profit to the Municipality. The proximity of this work, as compared with our remote and expensive Salt Water Lake reclamation, is another advantage which the Bombay Corporation has over us. We are bound to add, however, that of late there have been some objectors, the Byculla Club among the number, to the proximity of the reclamation work and the consequent smell.

The forenoon was given to a visit to the police office, and in the afternoon Mr. Souttar left. He had intended to stay a day or two longer, but found the weather very exhausting, and not seeing quite well, was afraid of overdoing his strength. He was able to bring a good deal of detailed information with him in the shape of reports and statements, [illegible] further supply, including a complete set of the forms in use in the Bombay office, is to follow by post. In this and in other respects we believe, Mr. Souttar met with the greatest courtesy at the hands of all the Municipal officials. We are glad that Bombay is a precedent of some of those visiting Calcutta this year or another. It is not a mere matter of interchange of courtesies. The comparison of systems and experiences ought to be productive of good to both Corporations.
